Hi Amanda, Garrett gave you me your number to talk about the 990 numbers and the revenue from WSR for the last 5 years.

Can we connect tomorrow? As I am about to head to dinner with my wife and neighbors for his birthday.

I am a board member now, one of the two owner elected ones, and can discuss the numbers I have published.

As PEF will be fine, this narrative that this will destroy PEF is false, and Garrett said you agreed generally.

But I would like to reconcile, as I had called, emailed, and tried to get with PEF a few times the last few months to align.

Hi- may I ask who I am speaking to?

I am available tomorrow, - either around 10 am or later in the day. I have some plans with my family between 11 AM and 4.

Happy to connect and discuss further. Are you planning on coming to the school board meeting on Monday?

Oh that would help...

I am sorry. Doug Charles

Hi Doug, nice to meet you

Yes, I am the lead petition ... and absolutely glad to meet you... and I truly look forward to understanding why the data the HoA has is different

1 Reply

As that's directly from our financials

Lets talk after 4 if that works will be at church until 11

Yes, I am the lead petition ... and absolutely glad to meet you... and I truly look forward to understanding why the data the HoA has is different

As all the data came from HoA or the 990 filings for PEF

I have only been on the board for two years, but I have access to our donor perfect site which logs all of the donations.

I can't speak for years prior aside from what I see- but I can pull the information and have a general conversation with you.

I'm not necessarily interested in going tit for tat or trying to reconcile exact figures, but I would like to have a general conceptual conversation because I feel like this is not a PEF issue and it's somehow become one on the Internet.

I don't like our name and finances being discussed or misrepresented in a public manner by persons who do not volunteer or donate within our organization.

We do our best to be transparent- I hope that is seen.

The Windsong contract is also not an isolated

contract. We have had them with other developments over the years. This is just the most recent and largest.

We care deeply about the Windsong families and I am a PISD parent and community member above all things.

Your absolutely right. The ISD leadership and their allies are making this about PEF. PEF, as I have said, will survive as they always have and do so with a big asset balance compared to without WSR.

The math doesn't make sense to deny the annexation to keep funding PEF for the tax payers and I understand you agree, but some in the administration and Trustees are making this life or death for PEF.

I just disagree and have never made it an issue... for the annexation, until all these posts today .. worried about how it will impact PEF.

We do our best to be transparent- I hope that is seen.

I think so, I would say, you're missing your 2024 990 on your website... I had to source it differently.

The Windsong contract is also not an isolated contract. We have had them with other developments over the years. This is just the most recent and largest. ...

I understand and agree. This has been a win win and now it's time to make things perm for our families and to do right for all tax payers in PISD by allowing us to

to do right for all tax payers in FUSD by allowing us to pay our fair share .,

Thank you.. for your time and look forward to connecting tomorrow

Today was the first time I had heard anything about any of this related to PEF and it was on Facebook. It has not been a conversation I have been a part of otherwise.

I'm looking forward to talking tomorrow!

Yeah. As we have been advertising for weeks, and engaged since Feb. But we never proactively brought up PEF other then the contract that enables... but not the money. Etc. as it was immaterial to the annexation generally until the admin made it an issue

Given up 220 Mm in net revenue over 30 years... is just Financial unwise

Well, I am probably not equipped to be speaking on behalf of PEF entirely as I am only the VP of finance. But we can definitely get you in front of the president and the executive Director and myself if you would like that.

I'm happy to talk tomorrow. Just as an FYI I am a wealth advisor and a financial services professional and have been for nearly 30 years. This is in my wheelhouse.

Awesome and so you understand
